Improve and elevate your CSR and ESG strategy by offering an innovative new employee service

# Drive Educational, Environmental and Social Change in Your Workplace

## FULLY FUNDED Employee Energy Advice

Supported by

Providing **in-person education** on energy usage, efficiency and management is a critical factor to ensuring homes remain warm in the colder months.

This unique service from RES **empowers employers** to provide tangible guidance and support to employees that may be struggling to pay their bills and heat their homes.

With fuel poverty numbers growing nationally, it is imperative that employers act now to **protect their staff and their families wellbeing**.

### How it works

#### Energy Advice Workshops

Followed by non-mandatory one to one employee advice sessions.

#### Pop Ups

Our energy advisors can pop up in your canteen, reception or social areas to be on hand to employees during breaks or before / after work.

### What does the service offer?

Simple advice and guidance on how to save energy and reduce waste at home and at work

Introduction to energy saving measures such as insulation and air source heat pumps

Overview of grants available to support and fund home improvements

One to one sessions to create individual energy action plans

Take away energy advice packs
